The Dubai World Trade Centre is considered to be the focal point of business within the Middle East.

The complex comprises a 39-storey office tower, eight exhibition halls, the Dubai International Convention Centre, which can accommodate more than 6,500 delegates in its multipurpose hall when set in auditorium style, a business club, and residential apartments with a leisure club.

The exhibition halls comprise a total exhibition area of 42,000 square metres of gross exhibition space which reinforces Dubai as the region's premier venue for international exhibitions and conferences. The Dubai World Trade Centre Exhibition Complex is the largest international standard exhibition centre in the region.

The exhibitions staged in these halls serve the growing needs of the regional business community. International exhibitions featuring health, oil and gas, food, information technology, construction, interior design, furniture and textiles, fashion, electricity, consumer electronics, cable & satellite, education and motor vehicles are staged annually.

The Audix Systems Public Address and Voice Alarm covers the Exhibition Halls, main thoroughfares and Office Block. The system comprises 29 racks distributed around the site and linked by the Audix network allowing total flexibility in the operation of the site.

**The system comprises;**

- 29 racks
- 10 network nodes.
- 40 microphones
- 55 zones
