From the UK's leading control panel manufacturer

Assessed to ISO 9001: 2000
Certificate number 018

INVESTOR IN PEOPLE

Introduction

The Voyager/Xplorer range of panels has two bezel options: the semi-flush bezel and the fully-flush bezel.

The semi-flush bezel simply bolts to the Voyager/Xplorer panel cabinet allowing the bevelled edge only to protrude from the wall. It has a painted finish the same colour as the panel. A 30 mm hole overlap is provided to cover the hole edge.

The hole size required is detailed in the Xplorer and Voyager Application Guides.
